

Blanche LED Trimless

PL-BLA

1W Trimless Step Light

Description

Blanche and Boulogne are the latest additions to our range of trimless marker lights. Choose from 2700K or 3000K replaceable light source, and a minimal square or oval opening. Perfect for lighting individual stair treads, giving a night light on a landing, or in a care home setting, the applications for this type of marker light are numerous. If this is a retrofit installation have a look at our Pyrenees and Simplon ranges which both utilise the same 1W CREE LED replaceable light source and don't need a plasterer.
